

## To the attention of parents and entrants!

7 important steps that our university, headed by our rector Kurishbaev Ahylbek Kazhigulovich, has made since 2012, to improve the quality of work of S. Seifullin Kazakh Agrotechnical University:

- 1) significantly increased the share of practical training and updated all educational curricula;
- 2) a new student hostel and a residential place for young lecturers and scientists have been built for the first time for 25 years;
- 3) signed a cooperation agreement with the world's leading research agrarian university - the University of California in Davis, USA;
- 4) restored their own experimental farm, which they had not had for nearly 20 years;
- 5) increased the amount of funding for science, the proportion of faculty involved in scientific research - almost 3.5 times;
- 6) were included in the number of 11 basic universities of State program of industrial and innovative development (SPIID) and graduated the specialists under new programs for the food industry and agricultural machinery;
- 7) set up an experimental manufactory for processing meat products, an experimental manufactory for processing milk, an educational mini-bakery, an experimental production plant for vegetable oils.

For more than 60 years of history, the University has trained and graduated about 65,000 specialists, bachelors, masters and PhD doctors who work fruitfully in all spheres of Kazakhstan's economy, near and far abroad, and take an active part in the development of our country. Among the graduates there are deputies of the Parliament, ministers, employees of the Office of the President and the Government, Heroes of Labor, Akims of regions, districts and cities, heads of large enterprises, ambassadors, prominent scientists, businessmen and famous people whose work is marked by top government awards.

At present, more than 890 lecturers work at 42 departments of our multi-faculty university, including 470 doctors and candidates of sciences, who work tirelessly to improve the quality of education.

At 7 faculties of the university there are more than 11 thousand students, undergraduates and doctoral students. Three-language training is conducted on the specialties of bachelor's, master's and doctoral PhD.

To implement educational and scientific activities on a qualitative level, a powerful material and technical base has been created, which includes 10 educational buildings equipped with modern facilities, a veterinary clinic, an information technology center, an educational and experimental farm, an educational and health center, a youth center, 8 student hostels, united in a single campus system, a library with a collection of more than 1 million books, a printing house, which publishes textbooks, monographs and educational methodical literature, a university newspaper "Menin Universitetim". (My University)

The position of our university in the ranking of the best universities in the world according to QS World University Rankings +701, according to which we are one of 9 Kazakhstani universities that are among the 800 best universities in the world. In 2017, we entered the top 200 in the ranking of universities in Eastern Europe and Central Asia EECA-2016, which includes 18 universities from Kazakhstan.

Our university takes 2nd place in the RK in the direction of "Agricultural Sciences" in the rating of the Independent Accreditation Agency and the rating in 2017. In the "General rating of universities - 2017" of the Republican rating agency, our university from 137 universities of the RK is on 11th place.

The faculty of arts and creativity enjoys great popularity at the university, where students, in parallel with the main chosen specialty, can develop their talents in different directions.

There is a sports club at the university. Students are engaged in various sports, among them there are Olympic champions, champions of the World and Asia.
