

## ANNOUNCEMENT

### International scientific-practical conference "Organic agriculture in the Republic of Kazakhstan: Present and Future"

**30 June -1 July 2016, Astana, the Republic of Kazakhstan**

**Dear colleagues, friends and partners!**

Saken Seifullin Kazakh Agro Technical University (further KATU) is delighted to invite you to participate in the **international scientific-practical conference "Organic agriculture in the Republic of Kazakhstan: Present and Future"**.

#### **The ORGANISERS OF THE CONFERENCE:**

- 1) S.Seifullin Kazakh Agro Technical University, Astana, Republic of Kazakhstan (further – KATU);
- 2) CHINA QUALITY CERTIFICATION CENTER, Beijing, China, (further - CQC).

The conference will be held **with the support of the Ministry of Agriculture of the Republic of Kazakhstan** on 30 June – 1 July 2016.

#### **THE OBJECTIVES OF THE CONFERENCE ARE:**

- comprehensive discussion of the problems and prospects of the production sector of organic agricultural products in Kazakhstan;
- exchange of experience and elaboration of practical recommendations for accelerating the development of the sector of organic agriculture in the Republic of Kazakhstan;
- the acquaintance with the market of organic products of China and practical recommendations for promoting domestic organic production in China.

For this, we hopefully expect that scholars, experts, farmers, entrepreneurs, teachers, graduate students, and doctoral students of research and educational institutions, managers and specialists of commercial and non-profit organizations and public associations will take part in this conference. It is expected the performance of world-renowned experts and scholars in the field of organic agriculture.

The conference will be conducted in the following areas:

- the innovative production technology of organic agricultural products;
- the plant protection in ecological sustainability of agrobiocenoses certification and marketing of organic products.

Last but not least, this conference is also thought to provide:

- the exhibition of organic products and auxiliary materials - biopreparations, equipment, books, booklets, etc.;
- visiting the farms producing ecologically clean agricultural products in the region of the food belt of Astana.

At the conclusion of the conference the proceedings of the conference will be published. The most interesting articles will be also included into a special issue of the journal "Science Herald of S.

Seifullin KATU” (it is on the list of publications, recommended by the Committee for control of education and science of the Ministry of Education and Science of the Republic of Kazakhstan), dedicated to the development of organic farming in Kazakhstan.

## ASTANA is the capital of the Republic of Kazakhstan, one of the youngest capitals in the world

The Republic of Kazakhstan – is dynamically developing country at the very heart of Eurasia, which takes the 9<sup>th</sup> place along the area in the world.

Total area of agricultural used areas comprises more than 220 million, hectare. Equivalent to per capita, Kazakhstan takes one of the leading places according to this index in the world.

Animal husbandry development and veterinary safety provision are one of the important priorities in agricultural policy of the country.

Astana was granted the status of the capital of Kazakhstan in 1997. It was awarded the title of “World City” by the decision of UNESCO in 1999.

Astana is the largest business, diplomatic, trading and cultural center, where all governmental organizations, diplomatic representations of 44 foreign countries and 120 mutual and foreign enterprises are situated.

Astana is the fastest developing city in Kazakhstan, which sets a tone of country's transformations. Population of the city comprises more than 800 thousand people, as a result it is one of the largest cities in Kazakhstan.

Far beyond the country Astana is famous for its unique architecture and developed infrastructure. The most famous sightseeing attractions of the city are tower “Bayterek” is the symbol of Astana, Palace of Peace and Reconciliation, National Museum, theater “Astana Opera” and many others.

Astana is also the center of the north of Kazakhstan, where more than 70 % of all cultivated areas of the country are situated and more than 50 % of agricultural gross product is formed.

From 26 to 28 October, 2016 in Astana there will be held International agricultural exhibition KazAgro/ KazFarm 2016 (<http://kazagroexpo.kz>).

**Saken Seifullin Kazakh Agro Technical University** was founded in 1957 and is the oldest university in Astana.

More than 60 000 specialists were trained within its walls, among which are parliamentary deputies, leaders of regions, successful businessmen and chiefs of leading agro companies. Virgin lands were gone up by our alumni and agro industrial complex of the North Kazakhstan, the main breadbasket of the nation was created.

Today KATU is a modern, dynamically developing university, one of the leaders in the system of higher education of Kazakhstan.

From 2012 KATU has ranked among 800 leading universities of the world according to the QS rating. It is under the 5 leading universities in Kazakhstan based on the quality of educational programs according to the national rating.

KATU is the largest universities of an agrarian area in Kazakhstan. Total number of students is more than 11, 5 thousand, teaching staff comprises 871 people, whereof more than 90 are professors.

From 2015 KATU has been the basic university according to specialists' trainings for food industry and agricultural engineering within the framework of the State program of industrial-innovation development for 2016-2020.

It cooperates with more than 80 universities and scientific centers from 25 countries of the world.

APPLICATION  
to participate in the International scientific-practical conference  
"ORGANIC AGRICULTURE IN THE REPUBLIC OF KAZAKHSTAN:  
PRESENT AND FUTURE"

1.	Last name	
	Name	
	Patronymic (middle name)	
2.	Academic/scientific degree	
3.	Organization	
	Position	
4.	Contact details: address	
	Telephone	+7 7...
	e-mail	
5.	Section name	
6.	The full title of the report	
7.	Payment receipt (should be attached)	
8.	Signature	
	Date of filling out / Revision data
